Maximum Marks	5Marks

Functional Features Overview

The project includes key functional features for importing spreadsheet data into the system using Import Sets and Transform Maps. These features support data mapping, transformation, validation, and accurate storage of records in the target table.

S.No	Functional Feature	Description	Priori y	Statu s
1	Spreadsheet Data Import	Import data from spreadsheet into the system	High	Comp leted
2	Import Set	Upload and process spreadsheet data using Import Set	High	Comp leted
3	Transform Map	Map source fields to target table fields	High	Comp leted
4	Data Transformation	Transform and convert imported data into the required format	High	Comp leted
5	Data Validation	Validate imported records and identify incorrect data	Medi um	Comp leted
6	Target Table Storage	Store transformed records in the target table	High	Comp leted
