

Project Initialization and Planning Phase

Data	30.09.2026
Team ID	SWTID-2026-3759
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	3Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand the customer's point of view. The problem statement clearly explains the customer's current situation, the difficulty they face, and the need for a better solution. For the Skill Wallet – Import Data using Transform Maps and Spreadsheet project, the problem is related to importing and managing skill data efficiently.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS 1	A Skill Wallet administrator	Import skill data from a spreadsheet into the system	Manual data entry takes more time and may cause errors	Large amounts of skill data need to be entered, mapped, validated and stored properly	Difficult to manage skill information efficiently
